START HERE – The HeadStart Toolkit

Brand: HeadStart Channels · headstartchannels.com

What this is: The webinar stay-until-end bribe — five founder tools so a busy full-time worker can find a high-RPM faceless niche, validate it, costume YouTube toward older demographics, know when to pivot, and plan the first 10 videos **without** Kevis on a call.

What this is not: A secret niche list that prints money. A guru course. A second job.

15-minute first pass (do this tonight)

Min	Do this	File
0–2	Skim what you got	README.md
2–5	Read the costume rules once	03–50–research–seeds.md → section “How to costume”
5–8	Open the scorecard	02–niche–validation–scorecard.md
8–12	Pick one niche from the Top 30 that already feels like living-room TV	01–top–30–niches–2026.md
12–15	Run that niche through the scorecard. Pass → schedule Day 1 of costume. Fail → next niche.	02–scorecard–fillable.csv

Stop. Close the laptop. Do **not** open Claude, Fiverr, or Studio tonight.

Order of use (full pipeline)

1. Costume the algorithm (blank account)	→ 03–50–research–seeds.md
2. Read the homepage as a market map	→ same file, Day 4
3. Score candidates (founder scorecard)	→ 02 + Top 30 as examples
4. Decide keep / park / pivot	→ 04–pivot–or–persist–decision–tree.md
5. Plan first 10 videos + scenarios	→ 05–first–10–videos–planner.md 05–what–would–kevis–do.md
6. Optional: paste Claude Project pack	→ claude–project/

If you already have a niche you like, start at **step 3**.

If your niche is already posting and stuck, start at **step 4**.

Rules of engagement (Kevis doctrine)

1. **RPM over vanity views.** A quiet channel in an older demo can beat a loud teen niche on dollars.

2. **Demographic arbitrage.** Advertisers pay more for 50–65+ homeowners with disposable income.
 3. **Winning formats > one-off virality.** You are hunting a repeatable structure, not a lottery ticket.
 4. **Owner OS, not second job.** You keep judgment (niche, ideas, packaging). Systems/people run the rest.
 5. **Never invent numbers.** Where a figure is given as a teaching range, treat it as a starting hypothesis and verify it in your own Studio and tools before you spend money against it.
-

Volume / self-serve note

Everything here is files + a Claude Project paste pack. No call required. If you later join HeadStart, these same tools are the ones the team runs — you already speak the language.

The HeadStart Toolkit · headstartchannels.com/toolkit · CREATIVETUBE LTD. Figures given as teaching ranges are starting hypotheses, not promises. Verify in your own YouTube Studio before you spend money. Nothing here is financial advice.
