

TOP 30 HIGH-RPM NICHE PATTERNS FOR 2026

Top 30 High-RPM Niche Patterns (NexLev farm · 2026-09-20)

What it is: Lock-list of **faceless / low-barrier** niche *patterns* with live **NexLev keeper comps** from the Sept 20 farm dump (first ~100 cards → 36+ keepers; strongest 30 below).

What it is not: A promise you will hit these numbers. Not a license to copy titles, footage, or scripts from example channels.

Data honesty

- Comp stats (subs, avg views, days) = NexLev farm snapshot Kevis supplied **2026-09-20**.
- **Channel Recipe** fresh dump that same window = **identical to Sep 15** (0 new IDs). Do not treat CR as the refresh source this week.
- RPM = never invented here. Verify on your own Studio / tools.
- Slots **15–16** are **YMYL / senior-health** — prior soft cluster; eyes open on policy.
- Farm still scrolling — more keepers already in-file (see appendix). Re-rank before webinar if farm grows.

How to use

1. Costume first (03) or jump here if short on time.
2. Open 1–2 example comps. Watch 10 minutes.
3. Run full scorecard (02).
4. PASS → planner. Do not enter five niches at once.
